

Satelite Radio is the best thing that every happened out here in the sticks. I'm 70 in December and depend upon them for news. The only other station I get well is 820 WBAP out of Dallas, about 110 miles away. If I could get local weather

Please let them compete in a fair market. Protecting the old fashioned way of doing things doesn't work in the long run.

We need more innovation and less federal interference in our business.
